

WHAT IS NSC} YOUCPETM?

nsc} YouCPE™, powered by Dell Technologies and optimized with Intel® Xeon® Scalable Processors, is the uCPE solution for the enterprise that delivers on the promises, giving you unmatched choice and flexibility to unlock the potential of your network

As a concept, uCPE promises to drive a huge transformational shift in enterprise networking by:

- ◆ Reducing costs and maximising return on your network investment
- ◆ Breaking vendor lock-in and increasing the agility of your IT department
- ◆ Providing greater choice and genuine flexibility
- ◆ Enhancing security, enabling innovation and future-proofing your network

While enterprise adoption of uCPE is predicted to triple year-on-year, unfortunately many of the uCPE solutions currently on the market don't deliver on the promises listed above. This is because these solutions are used as a vehicle to introduce pre-defined managed services into your business, rather than provide a platform to cater to your needs. This ultimately prevents your business realising all of the transformational benefits that are possible with uCPE.

WHAT IS NSC} YOUCPETM?

nsc} YouCPE™ is the uCPE solution for the enterprise that delivers on the promises, giving you unmatched choice and flexibility to unlock the potential of your network.

Key benefits of YouCPE™:

◆

Available in multiple hardware specifications

◆

Managed by our hosted YouCPE™ Orchestrator

◆

Installed and supported anywhere in the world by our Global Field Engineers

◆

Operated by our 24x7x365 Global Network Operations Centre

WHY CHOOSE NSC} YOUCPETM AS YOUR UCPE SOLUTION?

	OTHER UCPE SOLUTIONS	nsc} YouCPE™
WAN CARRIER INDEPENDENT?	❌	✅ Yes - YouCPE™ platform is WAN carrier and location agnostic so you have full choice and flexibility.
HOSTED UCPE ORCHESTRATOR?	❌	✅ Yes - YouCPE™ orchestrator layer is provided as a service so you have a consistent and globally managed platform.
OPTIMIZED FOR VNF EFFICIENCY?	❌	✅ Yes - YouCPE™ is optimised so you have more hardware resources to run and power your VNFs.
FULL CHOICE OF VNFS?	❌	✅ Yes - YouCPE™ gives unlimited VNF choice and configuration so you can choose the VNFs to fit your business needs.
FULL CHOICE OF VNF SERVICE MODEL?	❌	✅ Yes - YouCPE™ offers multiple service model options so you can choose the model that meets your requirements.

Unlike other uCPE solutions, YouCPE™ has been designed specifically to keep the options open at every turn, allowing you to shape the solution to fit the unique needs of your business and make uCPE work for you.
